

INCLAVI NEWSLETTER - JUNE 2025

The EU-funded project [INCLAVI](#) (INCLusive AViation), develops an accredited online training curriculum, targeting staff in airlines and in the aviation industry in general, to train them to better serve Persons with Disabilities (PwD) and others with specific accessibility requirements. INCLAVI drives change in air transport accessibility through respect, dignity, and inclusivity.

The Consortium Members during the final project meeting in Helsinki.

Project Status

The INCLAVI project has developed 40 accessibility-focused modules designed in collaboration with university and industry partners. These modules are already available free of charge to aviation and tourism professionals wishing to enhance their accessibility knowledge.

The curriculum is hosted on an easy-to-use Learning Management System (LMS), supported by a mobile app, offering self-paced, fully online training. We are currently in the demo phase, featuring 14 modules, available here: [INCLAVI Curriculum](#).

Stay tuned for further updates!

Update of the INCLAVI Training Curriculum

The Curriculum Demo is an important milestone for INCLAVI project. Based on the ongoing work across WP2 (Current State Analysis), WP3 (Curriculum Development and Piloting), WP4 (Recognition and Certification), and WP5 (Quality Assurance and Evaluation), the INCLAVI project is now ready to demonstrate an example of the learning materials developed by the consortium.

'Curriculum Demo' is located at the following link with 14 modules that are open publicly to any interested learner via HH Online LMS, a user-friendly platform, accessible through a log-in page.

Check out our [Demo](#).

INCLAVI Curriculum Receives EOCCS Certification

INCLAVI'S Project Manager receiving the EOCCS Certification.

The INCLAVI curriculum, developed under the Erasmus+ funded Inclusive Aviation project, has been officially certified by EOCCS (EFMD Online Course Certification System), representing a major milestone confirming the curriculum's quality and impact. This recognition reflects the strong collaboration between academia and aviation in promoting accessibility within the air travel industry. The INCLAVI consortium wishes to extend their gratitude to EOCCS and the certification panel for their valuable feedback and support.

**Co-funded by
the European Union**

2025 Events

The consortium members attended two more events during the first half of 2025 with the objective to further disseminate the project and showcase the training curriculum:

- [Passenger Terminal Expo 2025 in Madrid, Spain \(April 8-10\)](#) – The INCLAVI Consortium took part in the event's accessibility track to discuss inclusive aviation. Our members had the opportunity to bring their expertise to the table, all the while advocating for air transport accessibility, and promoting the INCLAVI project and values.
- [Final consortium meeting in Helsinki, Finland \(May 20-21\)](#) – Our consortium came together to review project deliverables, reporting, and next steps during the last general meeting of the INCLAVI project.
